

SAVE THE DATE

1st Circular

9th International Workshop on Long Term
Prediction of Corrosion
in Nuclear Waste Systems
(LTC2025)

November 3-7, 2025
Sendai, Japan

Organized by:  公益社団法人 Japan Society of
腐食防食学会 Corrosion Engineering

in cooperation with:  東北大学 TOHOKU UNIVERSITY  NUMO
原子力発電環境整備機構

supported by:  EFC  WP4
EUROPEAN FEDERATION OF CORROSION Nuclear Corrosion

EFC Event N° 501

Program

The scope of the program will cover all areas related to the corrosion behaviour of materials in nuclear waste storage and disposal facilities.

The conference will include oral presentations and poster sessions.

Contributions from students are encouraged as there will be a prize awarded for the best student poster and/or oral presentation.

Conference schedule:

Nov 3: Registration

Nov 4-6: Scientific programme

Nov 7: Technical tour

Venue

The conference will take place on "Katahira Sakura Hall" in Tohoku University in Sendai, Japan.

Address: [Katahira Sakura Hall](#), 2-chōme-1-1 Katahira, Aoba Ward, Sendai, Miyagi 980-0812

Sendai is the biggest city of east-northern Japan and can be accessed by the Tohoku-Shinkansen (the bullet train) from Tokyo within 2 hours.
